PROFILE

Backend Lover so I saw myself very creative in my job so I think I will be suitable for your job.
I was work on Backend with ASP.net core for 2 years.
And I work .net Desktop apps for 1 year.
And I build some projects with this technology.

EXPERIENCE AND WORK HISTORY

.NET Backend intern in It Legend (Eng. Ali Shahin's Company):
From August 2023 to September 2023.
Location: Mohandssien, Egypt
I Work At Hiring Project like Wazzuff, work at Team, Learn how to build a clean architecture project.

.NET Backend As a Freelance:
From January 2022 to October 2023.
Location: Minya, Egypt.
I Work On several Projects as a freelancer for 2 years:

- **Education website for high school:**
  I build The server side of the web site and add the template for the project.
  I Work on it with MVC pattern
- **Exam Scheduling at Minya University:**
  I Managed some of holes for student tests in specific Time
- **Dentist Clinic Management (Desktop app):**
  Dentist Clinic management
  The Doctor can save patients info and the paid money and the rest
  Can save description of patients status
  Can list the patients
  Can search for specific Patient
