- Developed and maintained **internal software solutions** to improve workflow and system efficiency.
- Supported users with **technical troubleshooting, MS Office applications, and internal system operations**.

It Legend

NET Backend Intern

08/2023 – 09/2023
Mohandssien, Egypt

- Participated in building a **job recruitment platform similar to Wuzzuf** using **ASP.NET and SQL Server**.
- Worked collaboratively within a **development team using Git and modern development practices**.
- Learned and implemented **Clean Architecture concepts, layered architecture, and backend development best practices**.

🧠 SKILLS

Core Competencies (C# - OOP - Data Structure - Algorithms - LINQ - SOLID Principles - Entity Framework Core - Agile - DevExpress - Crystal Reports)

Backend (ASP.NET Core MVC - ASP.NET Core Razor Pages - ASP.NET Core API - Dependency Injection - Authentication (JWT) - Authorization - Microservices - Docker)

Databases (SQL Server - PostgreSQL- MongoDB)

Desktop (WinForms - WPF)

Frontend (Html - Css - JS - Bootstrap - JQuery - Angular - Blazor)

Patterns (Unit of Work - CQRS - Clean Architecture)

Version Controls (GitHub - TFS)

🎓 EDUCATION

Bachelor's Degree in Computer Science, Specialization: Information Systems

Computers and Information College

2019 – 2023
Minya, Egypt

🌐 LANGUAGE

Arabic
(Native)

English
(very good)

Spanish
(beginner)

🔗 SOFT SKILLS

Good Communication, Teamwork, Collaborative, Fast Learner
