PROFILE

I am Mohamed, a passionate and dedicated Full Stack Developer with a degree in Computers and Information Systems. I have hands-on experience in developing web and desktop applications using technologies such as ASP.NET ⚡ MVC, ASP.NET ⚡ Core Web API, Angular, React, and WinForms. I also have basic knowledge of Blazor.

Currently working as a freelancer, I've delivered multiple projects across different domains, combining robust backend solutions with dynamic and responsive frontends. I am continuously seeking to improve my skills, stay up-to-date with the latest technologies, and contribute effectively to team success.

I'm eager to grow further in my career by working with forward-thinking teams and companies, where I can both learn and add value through my technical expertise and commitment to high-quality development.

EXPERIENCE AND WORK HISTORY (+3 YEARS OF EXPERINCE)

Self-employed | Remote

01/2022 – present

Freelance Full Stack Developer

Minya, Egypt

1. Education Website for High School

- Developed the server-side logic using ASP.NET ⚡ MVC.
- Integrated a pre-designed UI template into the project.
- Followed the MVC architectural pattern to organize the application structure efficiently.

2. Exam Scheduling System – Minya University

- Contributed to a system for managing exam schedules and allocating exam halls for students.
- Implemented logic to assign halls to student groups at specific times, improving scheduling efficiency.

3. Dentist Clinic Management System (Desktop Application)

- Built a Windows Forms application to manage clinic operations

4. E-Commerce Website – Smart Store

- Developed and deployed a RESTful API using ASP.NET ⚡ Core for managing products, categories, orders, and users.
- Collaborated with a team to build the frontend using Angular. Focused on building secure, scalable backend services and integrating them with the frontend.

5- LiBooking Site live site : [Libooking](#)
